EXPERIENCE

Manager - Sustainability Strategy and Transformation, Think Beyond | London, UK

Mar 2024 - Present

- Designed and executed 15+ sustainability transformation strategies for Fortune 500 clients across 7+ industries, embedding circularity and resource efficiency into operating models and corporate strategy to unlock measurable commercial and sustainability value.
- Developed 5+ Net Zero strategies and climate transition plans aligned with SBTi and TPT, leveraging decarbonisation scenario analysis to prioritise emissions abatement across operations, energy, digital infrastructure and value chains, achieving 30% emissions reduction.
- Led 10+ sustainability reporting engagements, double materiality assessments and climate risk assessments aligned with ISSB, TCFD, TNFD, CSRD and IFRS S1 & S2, integrating physical and transition risk analysis into strategic planning, governance and disclosure.
- Led 6+ global sustainability programmes, managing cross-functional teams across 15+ regions and 150+ stakeholders, leading strategic partner due diligence, selection and bespoke sustainability partnerships, enhancing brand value by 20% with sustainability positioning.
- Directed 6+ supply chain sustainability strategies, embedding automated supplier ESG assessments, sustainable procurement and circular sourcing practices, aligning 52% of suppliers with ESG KPIs and Net Zero targets while improving resource efficiency by 30%.
- Established 10+ carbon accounting platforms (Scope 1, 2 and 3 emissions) aligned with GHG Protocol, CDP and ISSB, leading ESG data management, GHG verification and AI-enabled Power BI dashboards to support scenario modelling and climate decision-making.
- Implemented ISO 14001/20121 event sustainability frameworks including circular operations and stakeholder engagement across global events (Premier League, Motorsport, EFC), achieving 28% waste reduction, 90% water recycling, and 96% renewable energy adoption.
- Conducted lifecycle assessments, material flow analyses and value chain diagnostics to transition operations from linear to circular models, reducing virgin material consumption by 40%, cutting packaging waste by 30% and scaling circular sourcing approaches.
- Led 20+ proposals, client pitches and executive workshops, developing sustainability propositions and 12+ thought leadership initiatives that supported business development, practice growth and executive engagement across 200+ senior stakeholders.

Management Consultant - Finance Transformation, KPMG Global Services | London, UK

Nov 2019 - Jun 2022

- Managed 15+ AI enabled strategic transformations for FTSE 50 clients, improving operational efficiency by 40% and strengthening supply chain resilience, unlocking £4bn+ in working capital through operating model redesign and process transformation.
- Led 5+ global strategy-to-execution ERP implementations, designing circular and low-carbon operating models enabled through digital transformation and cross-functional engagement across £6bn revenue portfolios, boosting profitability and scalability by 20%.
- Directed change management and capability-building programmes across global teams, improving agility and decision velocity by 25%. Facilitated 15+ client workshops and focus groups, driving alignment on change programmes and accelerating decision-making.
- Led CSR and ED&I initiatives, launching 10+ campaigns that advanced inclusion and employee engagement (Rising Star award).

Assistant Manager - Risk Advisory, AMP & Co. | Jaipur, India

Aug 2018 - Nov 2019

- Delivered £400k+ in savings through resource optimisation, operational efficiency improvements, and sustainable supply chain initiatives across 10 geographies, integrating sustainability performance dashboards into executive decision-making.
- Conducted enterprise risk, double materiality, and supply chain risk assessments for multinational clients, embedding sustainability-linked standards and resilience strategies to address climate, operational, and supply chain disruption risks.

Audit Executive - Assurance services, Ernst and Young | New Delhi, India

Jun 2014 - Jun 2017

- Managed 20+ audits and performance improvement projects for multinational clients across 7 industries, strengthening governance, operational resilience and financial controls, delivering £1M+ in cost savings and 15% working capital improvement.
- Conducted financial modelling and advanced data analytics to identify business issues, develop and test hypotheses, and translate complex financial data into strategic insights for senior management, supporting strategic decisions and performance improvement.

LEADERSHIP AND ACHIEVEMENTS

- Founded Club Khel, a social enterprise offering an after-school play-based education programme aligned with SDG3 and SDG4, impacting 4,000+ students across 40+ cities in India and improving learning outcomes by 30%. (2023)
- Presented at the World Government Summit 2023, enabling the development of first digital charter to protect human rights. (2023)
